Prov. Park Possible at Brazeau Dam

Minister of Environment William Yurko was a Drayton Valley visitor last Friday for a noon luncheon and a visit to the Brazeau Dam.

At the luncheon meeting in the Cardium Room, Mr. Yurko met members of the town and county councils and representatives of area Fish and Game Associations.

Mayor Lloyd Maclean welcomed visitors to the community and Mr. Yurko, introduced by M.L.A. Rusty Zander, outlined plans being evolved by his department to ensure continuing outdoor recreation facilities for Albertans.

Following the luncheon the party toured the dam area by car and airplane.

It was Mr. Yurko's first visit to the dam and he expressed surprise at the desolate view of dead trees surrounded by water.

As a result of the visit it is thought likely that a recommendation will be made for a 40 acre provincial park and for extended clearing under the Federal Winter Works Program. It is expected that the water level will be lower this winter providing an opportunity for clearing.

It was reported that work, under the direction of the Department of Lands and Forests, has been going on throughout the summer. The operation, however, has been primarily directed at removal of floating logs.

4-H Banquet

Tomahawk 4-H Beef Club will hold its Annual Fall Banquet on Friday, October 29th at 7:00 p.m.

Delegates Heard By Town Council

A regular meeting of the Drayton Valley Town Council was held on Thursday, October 14th in the Town Hall Council Chambers. Delegates were present from the Rebels Hockey Club and Glengar Developments Ltd.

The hockey club, represented by H. Janzen, L. Brown and S. Belcourt, outlined economic problems of the club and asked for a change in the split of gate receipt percentages.

The matter was discussed at some length and was to be investigated further by council and recreation representatives before a decision is made.

COUNCIL BRIEFS

At its last regular meeting Town Council approved the extension for another year of the L.A.B. order regarding farm lands included in the H. Deby property.

A progress report on the proposed Senior Citizen's Home was given by the Development Councillor Bob Mayhew. The home is to be built on a site south of the Elementary School.

Public Works Chairman Bob Huber reported on progress of the water line to the Saskatchewan River.

Evansburg School Tenders Approved

Education Minister Lou Hyndman said in Edmonton last week that tenders for construction of a new high school in Evansburg have been approved. He also said the Yellowhead School Division has been asked to require the contractor to hire local labor.

The long-awaited and much-debated school will serve students from the Evansburg area as well as those in the northwest corner of the County of Parkland who wish to attend on a tuition agreement.

The go-ahead for the school follows a stormy history of plebiscites and court actions that have

delayed its construction for many months.

Mr. Hyndman also said in a prepared statement last Tuesday that the County of Parkland and Yellowhead School Division have agreed to postpone legal action to recover court costs from Seba Beach area residents who tried unsuccessfully to stop construction of the school.

The action against 13 ratepayers for a total of \$1,877, will be delayed and discussions will take place next month between the two authorities and the department of education in an effort to work out an equitable settlement.

Mr. Gary McPeak of Glengar Developments Ltd. asked that the town permit the erection of duplexes on a basis of 71 feet frontage for each duplex rather than the original 62 feet requested, and the Development Board's suggestion of 74 feet.

Edmonton Regional Planning Commission was contacted and agreed that 71 foot frontages met the requirements for land size and dwelling measurements.

Mr. McPeak explained the need for commencing the project without delay to insure an economical construction program and thus maintain the purpose of low cost housing which initiated the development.

Council generally agreed that providing the amended legislation meets with no objection, it would go along with the submitted development of three duplexes on four lots. The four lots will be subdivided into six lots providing one lot for each unit in the development.

The duplexes are to be built immediately south of the new West Valley Park Mobile Home Subdivision.

Mayor Lloyd MacLean (L) is shown here with retiring Fire Chief Don Griener (R) and Deputy Chief Larry Gano, also retiring. To mark their service to the town the men received 10-year awards from the town and engraved plaques from members of the Fire Department. The awards were presented at a banquet hosted by the town in the Cardium Room Friday evening.

Schools Open Again Monday

Over 20,000 students and 850 teachers returned to schools in north central Alberta Monday morning following a two-week strike by the teachers.

After gruelling bargaining sessions (71 hours since October 7th) representatives of the A.T.A. and N.C.(W)S.A.A. agreed Saturday to binding arbitration by a commissioner appointed by the chairman of the Board of Industrial Relations.

Both sides agreed to a change in the controversial "consultation clause" which now says, in part, that, "boards agree to inform a designated representative of their respective teaching staffs of proposed changes to policies and regulations which directly effect the working conditions of their teachers. The teacher representative will respond to such proposals within 15 consecutive days of being notified."

Areas still in dispute and to be settled by the Board of Industrial Relations appointee, include: salary grid to the end of 1971; salary grid for 1972; allowances for principals; pro rata; daily rate for substitute teachers; contributions by boards to Alberta Health Care Plan; contributions by boards to Alberta School Employees Benefit Plan; leave of absence and pay for salary negotiations; and the teachers' work week.

The commissioner will meet with representatives of both sides a week after his appointment and will issue his decision within two weeks of that time.

About 54 schools were effected by the strike which began at 12:01 a.m. on Friday, October 8th including those in the counties of Parkland, Lac St. Anne and Barrhead, the Westlock School Division and the school districts of Jasper, Grande Cache, the separate schools in Drayton Valley and Thibault School at Marmville. A great deal of concern had

been expressed throughout the area by parents during the strike.

At a meeting in Drayton Valley last Tuesday, a group representing the H.S.A. and local concerned citizens met to endeavor to urge some action to end the strike.

A petition was circulated on Wednesday and signed by 862 residents in the one-day blitz. Copies urging the government to end the deadlock were forwarded to the Minister of Education, Minister of Labor and both sides of the dispute on Thursday.

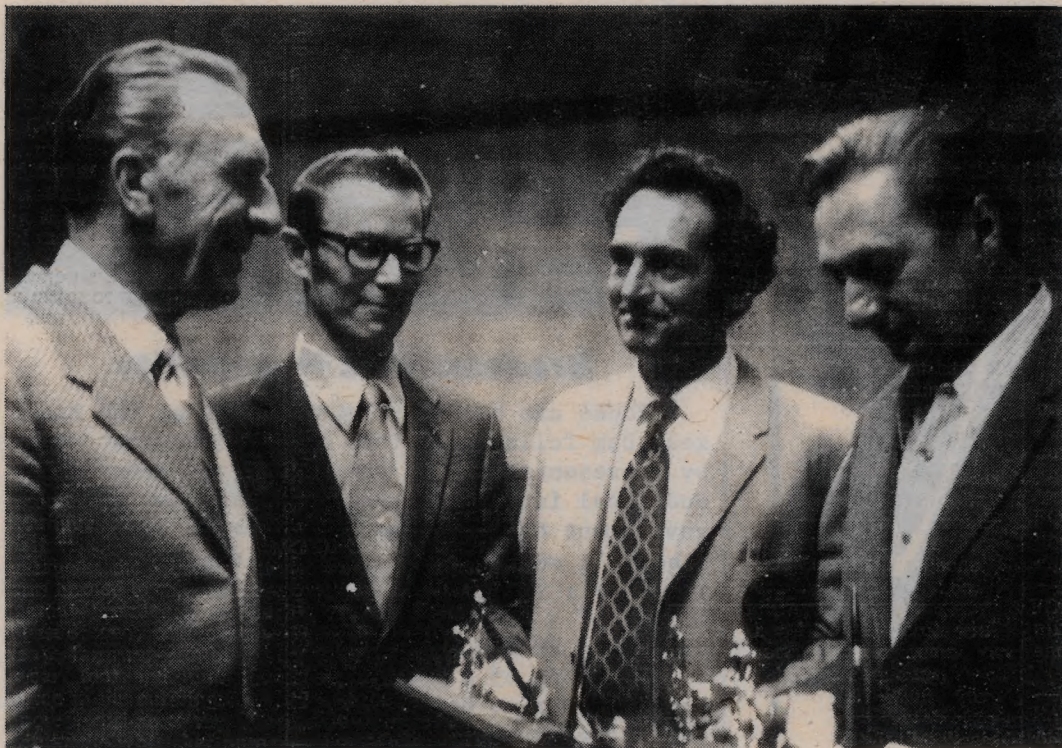

Funeral Service At Alder Flats For K. M. Hayduk

Mr. Hayduk leaves to mourn his passing, his loving wife Joyce three sons, Greg, Terry and Donald and one daughter, Lori all of Alder Flats, also his father of Calmar, one sister, Mrs. Betty Hosker of Fort St. John, B. C.; two brothers, Paul of Calmar and Tophen of Red Deer; plus numerous other relatives and friends who will miss him very much.

The funeral service was conducted by Rev. Gates of Ponoka in the Community Hall. Interment was in the Alder Flats cemetery on Tuesday, October 12th. Pallbearers were Lewis Thrower, Dennis Maciborsky, Jim Wilson, Ted Maclean, Norm Moore and Richard Hare, all of Alder Flats.

Members of the Drayton Valley Fire Department and their wives were guests of the town at an awards banquet in the Cadium Room, Friday evening. Guest speaker was Alberta Fire Commissioner A. E. Bridges who is shown above, left, with recipients of ten-year awards. From the left, Fire Chief Elmer Madsen, Deputy Chief Dave Ellery and Fireman Henry Unger.

Report From Parliament Hill

By Allen Sulatycky, M.P.

Despite some current difficulties, the fact that Canada and the United States share a common continent and are so alike in so many ways, means that we can learn much from each other.

One of the fields in which I believe a mutual exchange of experiences is beneficial is that of protection of our respective heritage. In both countries this takes the form of preservation of national parks, historical sites and other areas of natural or human interest.

Early this year I suggested that a number of Canadian parliamentarians take advantage of a grant from a private foundation to travel to Washington so that we may discuss with American officials some of their policies with relation to national parks and similar reserves.

Last week I and five other members of the Canadian Parliament spent a few days meeting intensively with officials of the United States National Parks Service, the Bureau of Outdoor Recreation, various conservation groups such as the Sierra Club and the Wilderness Society, and other bodies engaged in the area of parks and recreation.

Most of us returned with the impression that we in Canada have large gaps in our programs. This is particularly true in the field of historic sites and recreation. The Americans have placed a great emphasis on designation and preservation of historic sites and areas. Our policy in Canada has tended to favor the selection of military installations only as being of national historic value. Other aspects of our development as a nation have been to a large degree overlooked. I believe we should move to correct this imbalance.

In the sphere of natural parks,

we discovered that there was little if any distinction between the Canadian involvement and policies and those of our neighbors. Their large natural parks are administered in much the same way as ours, except for the American preference of granting commercial concessions for an entire park to one operator. A similar approach is impossible in many Canadian parks because of the number of commercial enterprises which now exist in them.

Pressure of people on the natural areas in the United States is greatly reduced by designation of a wide variety of areas as recreation areas. Many activities which are excluded from natural areas on both sides of the border are allowed in the recreation areas. In Canada because of our constitution it is the provinces which have to provide the opportunities for recreation which are provided in the United States by the National Recreation Areas. Such initiative by the provincial governments would help to round out our Canadian park system.

LEGISLATIVE REPORT

By Kevin Peterson and Don Sellar (Of the Calgary Herald)

An anticipated high unemployment rate in Alberta this winter is dominating the time of Premier Peter Lougheed this fall.

The federal government has already announced the measures it intends to employ as a stimulant to the economy; tax cuts for industry and individuals, loan funds for the junior governments and manpower training programs.

With his Conservative government just settling into office, Mr. Lougheed must co-ordinate the hodge-podge of federal aid, juggle the Social Credit budget to produce provincial initiatives and coax local governments into participating.

Ironically, a year ago the Conservative leader was demanding a fall Legislature session to enact meaningful job-producing programs for Albertans. Now he is premier, the Legislature won't meet until February and Mr. Lougheed faces the fact that finding jobs in winter isn't easy.

It will take several weeks for the ad hoc cabinet committee studying the jobless situation to come up with formal recommendations, but Mr. Lougheed has already met local government representatives and sent a delegation to Ottawa to make sure Alberta gets its fair share of federal dollars.

Under Ottawa's Special Development Loan Program, Alberta will receive \$9 million in low-interest-federal loan money, a \$2.2 million increase from last winter. By acting quickly to put this money to use, Alberta can save money; any money spent before May 31, 1972 on direct on-site labor costs will be eligible for a 75% rebate.

Public Works Minister Dr. Winston Backus is examining all planned provincial capital works projects in an attempt to accelerate construction through the winter months.

For example, the cabinet has already approved a \$585,000 expenditure for purchase and demolition of an Edmonton warehouse so construction can begin quickly on the new remand centre and provincial courts building there.

Premier Lougheed, with his customary caution, is not nearly as keen as the Ontario government of the idea of rebating taxes to put money into consumers' hands.

At a news conference in Calgary, he said the government has no intention of matching Finance Minister Benson's 3 and 7 percent tax cuts in the style of Ontario's Bill Davis.

Mr. Lougheed also told reporters he has been forced to assign top priority to decisions regarding federal-provincial tax-sharing, natural resource revenues and the United States trade measures in the months ahead.

"Some of the other reforms, particularly in the social services field are going to have to be delayed until we formulate policy in these three areas," he said.

Brazeau Park Possibility

Hopes are high for improvements at the Brazeau Dam following a tour of the area last week by representatives of the provincial government and local interested residents. The new P.C. government has expressed interest in preserving Alberta's outdoor resources and Environment Minister Bill Yurko showed enthusiasm for the possibility of a provincial park at the dam during his visit Friday.

Clearing of a large part of the flood area would appear to be too much of an undertaking at this time, but extended cleaning during lower water this winter and the development of a park would be a great improvement over the present situation.

A welcome announcement by Mr. Yurko on Friday was to the effect that the Alberta government intends to prevent future strip mining in mountain areas where scenic beauty would be severely damaged. The announcement will be welcomed by Albertans who have become increasingly concerned about ecological damage in the Canmore corridor near Banff that resulted in a public controversy earlier this year.

Manpower and the Weeklies

For some weeks, Canada Manpower has been using generous space in the daily press to announce policies that affect ALL the Canadian people. Why are these announcements not appearing in the weekly press? — the press that is thoroughly read from cover to cover, the press that reaches the people. In this area, the daily press has a circulation that is barely more than 50 percent of the local paper. That means that approximately 50 percent of our readers NEVER see these Manpower announcements — and, consequently, are uninformed regarding changes in Manpower policy, unless the weekly press contributes the announcement — and few of the weeklies are inclined to give away space for which the daily press is paid.

Despite the fact that Manpower feels that only 50 percent of our readers should be informed, it nevertheless sends out reams of FREE publicity to the weekly press. If the information is worth inserting in the daily press at paid rates, surely those who read the weekly press of this country are just as entitled to be informed of what Manpower is doing. Or are those who read only the weekly press listed as second class citizens?

Surely it is time that Manpower, and other government departments which cater to the daily press realize that readership interest in the weekly press surpasses that of the dailies.

HART CANTELON

Readers wishing to write to Mr. Cantelon are invited to do so. All letters to be forwarded to Hart Cantelon Counselling Services Ltd., 1600 Cambridge Building, Edmonton. Please include a stamped self-addressed envelope to ensure a reply.

Dear Mr. Cantelon:

Our daughter is 15. She came home from school last week and I noticed her crying in her room. When I went in she blurted out the news that she is over a month pregnant and that the father of the child is only 16. We know they are too young to get married. Is there any way in which our daughter can have the birth and still finish her school term? Should we try to keep her at home? We want to do what is best for her.

Dear Mother:

There are many alternatives open to your daughter. Excellent facilities are available in both Calgary and Edmonton whereby your daughter can have confinement and also continue with her studies through tutoring. These arrangements can be made by contacting the nearest office of the Department of Social Development for the Province of Alberta. A case-worker will be assigned and tell you of the details. This person will even make arrangements for her to see a doctor, if you haven't already done so. On the other hand, she could stay at home, if you feel she would not be embarrassed by meeting old friends and peers. Make her aware of all the alternatives, and then let her decide what she feels would be best. Your clergymen will be happy to help, if she has a church relationship and feels confident in talking her situation through with others outside the home. Above all make opportunities for her to talk each and every day and rally the rest of the family around her. If she stays at home correspondence courses from the Correspondence Branch, Department of Education, 12116-104 Avenue, Edmonton, Alberta, are available for her as well as private tutoring.

Dear Mr. Cantelon:

Our daughter is 25. She was married one month, and her husband left her the next. This happened a number of times during their courtship. We asked them a number of times to go for counselling before they got married. Our daughter said she was old enough and she knew what she was doing, and her husband-to-be, said he didn't need any counselling. We could see that they were not ready for marriage, but they were both old enough, and we couldn't stop them. What would have made our daughter go ahead

with marriage in the light of this behaviour? What should we do now? Welcome her back into our home? Should we say anything about counselling now to help her understand why her husband left. She is determined to work things out for herself. She also says she will take him back and give him one more chance. And how do we explain this to the rest of the children, who are in their teens?

Dear Worried:

Unfortunately, this is the position many young people still take with regard to pre-marital counselling. They agree to counselling in order to become proficient in the driving of a car, but refuse to accept this help for marriage. How strange! Welcome her back into the home, but don't bring up the matter of counselling again unless she asks about it. She'll be a sad girl, if she accepts reconciliation without some help from outside. She may have to learn by getting burned twice. In the really crucial situations of life, we have never been able to work things out ourselves. That is, if we are honest about it. Someone has helped along the way, and we may not even have recognized the fact. So far as the rest of the family are concerned, tell them the facts. They are old enough to know that marriage has its ups and downs. What is more this situation, when appreciated, may keep them from making the same mistake when they reach their twenties.

Tomahawk Church Setting for Ceremony

A beautiful autumn day enhanced the setting for a lovely wedding at the Immanuel Lutheran Church in Tomahawk on Saturday, October 2nd when Donna Lee, second daughter of Mr. and Mrs. Emil Jouan became the bride of Paul Louis French of Pickardville.

To the strains of Lohengrin's Wedding March, played by Mrs. Adele Stienke, the bride entered the church on the arm of her father who gave her in marriage.

Her traditional white wedding gown of peau de soie, had an empire waistline, long sleeves and high collar, trimmed with elegant lace and featured a long attached train. Her shoulder-length veil was held in place with a silver

ring, and she carried two white orchids on a white bible with stephanotis and white rose buds on streamers.

The bridesmaids, the bride's sister, Elaine King; a friend, Paulette Valcourt; and cousin Joyce Boorse wore identical gowns of red Melody velvet, with white French lace trim. They carried red tipped white carnation nosegays and had red rose buds in their hair.

The groom's attendants were Norman Revard, Francis Nadeau and Rodney Jouan. Ushers were Alan Jouan and Adreenne French, brothers of the bride and groom.

The bride's mother wore a purple beaded dress with white rose corsage, and the groom's mother

wore hot pink with white rose corsage.

The immediate family dined at the banquet room in the Jade Cafe in Drayton Valley and after a wedding dance was held in the Tomahawk Hall where about three hundred guests were present. A buffet supper was served at midnight.

The bride's going away outfit was a two-piece wine and grey suit with yellow rose corsage. After their honeymoon the young couple will reside in Edmonton.

SUMMARY

A sharp increase in deliveries of cattle and calves was evident this week with the fall run underway; approximately 5,800 over last week and 4,500 over last year. This being essentially a replacement market the bulk of offerings were of stock and feeder classes of which stock calves comprised almost one-half of the total volume. Despite the heavy run orders more than kept pace resulting in an active market. The butcher trade continued active with the exception of cows which became somewhat depressed with the advancing week.

SLAUGHTER CATTLE AND CALVES
Slaughter steers were in low supply, the few offered maintained a steady trend for most of the week, closing at firmer prices with sales on choice handyweights topping at 31.50. Butcher heifers opened on a steady basis and as the week advanced closed a firm 50 or more higher for all grades. Butcher cows opened barely steady as buyers became more selective to condition and quality. This lowering trend was evident as the week advanced with medium and good cows closing 1.00 to 1.50 lower and canners and cutters losing 50 cents. Good bulls were fully steady with the odd mid-week sale to 25.00. Good to choice veal calves continued scarce selling fully steady with the odd sale to 39.50. Butcher calves maintained steady prices.

REPLACEMENT CATTLE AND CALVES
All replacement classes were trading at firm to strong values. Heavy feeder steers over 800 lbs. were moving freely with a few packages selling 34.00 to 35.00. A good volume of bred stock cows were offered at mid-week selling at strong prices ranging from 23.50 - 27.90 and bred heifers to 29.00. The heavy volume of stock calves were selling at firm rates to a broad demand with a few light steer calves to 47.00.

SHIPMENTS
Last week's shipments off the Edmonton Public Stockyards were: East - 61 slaughter; 387 feeders plus 438 through-billed feeder cattle to Ontario. Export - 29 bulls. Feeders to other than local areas - 3,031 cattle and calves to central and southern Alberta.

Division Revises Program Reporting

The system of reporting pupil progress to parents of elementary schools in the Yellowhead School Division is being revised. The new system will provide parents with more comprehensive information on their children's progress and will rely more heavily on parent-teacher conferences since written reports cannot develop the type and depth of understanding and sympathy that conferences can. Parents will still get all of the necessary information - more of it, however, will be provided through the parent-teacher conferences.

The new report cards will indicate a child's individual progress and growth in relation to the school's understanding of his abilities in the different subject areas. Three achievement levels will be used: E - excellent progress is being made in terms of his abilities, S - satisfactory progress is being made in terms of his abilities, and U - unsatisfactory progress is being made in terms of his abilities. This system will encourage all students, whether of low or high ability, to work to the maximum of their potential. It recognizes that every child varies from everyone else in his rate of progress.

It was felt that the previous reporting system, based on a comparison of a student to his classmates and on a comparison to a set amount of curriculum which was the same for everyone in a class, had some undesirable results. Students of low ability got low grades and when because of low ability they could do nothing to improve, they became discouraged and felt they were fail-

ures with little sense of self-worth. As well, students of a high ability could handle the set curriculum with ease and were not challenged to work up to their ability.

The parent-teacher conferences are expected to be the most important part of the new reporting system. Information about a child's educational potential will be provided during the conference. It will be given in terms of more reliable standardized tests such as the Canadian Tests of Basic Skills. These tests have norms based on a large population and are generally reliable predictors of educational potential. The parent-teacher conferences will also provide an opportunity to discuss in more detail a child's strengths and weaknesses, his social adjustment, and any activities, incidents, or problems which relate to a child's development.

More information on the new reporting system can be obtained through your school.

The news letter was written and anyone having any local news to contribute to this letter is asked to get in touch with Mrs. Hazel Fausak. The letter is sent to a great many former residents of this district who like to receive news of "home". A building to be used as a woodshed at the hall was purchased from Mrs. Kurt Fausak. Plans for the annual fall supper were postponed until the men install a new heating unit in the kitchen.

Mr. and Mrs. Pete Prylowski spent Sunday visiting relatives at Fort Assiniboine.

The F.C.C. and the Gay Gatherers held a farewell party in honor of Mr. and Mrs. Johnny Brunet on Friday night at the home of Mr. and Mrs. Kurt Fausak. They were presented with a three piece coming ware set from the district. We hope to see you back some time folks. Their daughter Donna is staying with their friends the Ponipals while she finishes her schooling.

Another large group of friends gathered on Sunday night to give the Brunets a happy send-off. Friends from Edmonton and Barrhead were also present. They were given a large ornamental lion bank as a going away gift.

GAINFORD NEWS

Thanksgiving weekend was busy for Gainford residents. Mr. and Mrs. H. McLachlan and Mr. Thedley Hunt drove to Athabasca to visit Mr. and Mrs. Jim Brown. They came home by way of Thorhild to visit Mr. Leo Pilkins who is in the Senior Citizen's Home there.

Mrs. E. Strachan of Edson came to Gainford to visit with Mr. and Mrs. J. Millar and Mr. and Mrs. D. Strachan.

Miss Annie Lawley was home for the weekend. On Sunday the family went to Edmonton for Thanksgiving supper at the home of Mr. and Mrs. George Beach Sr.

Mr. and Mrs. Pete Keller and Miss Polly Keller were weekend visitors at the home of Mr. and Mrs. E. Diduk.

Mr. and Mrs. E. Miller and Gary were home for the weekend from High Prairie to attend the wedding of their son Kenneth.

The wedding of Miss Theresa Brothers of Hanna to Mr. Kenneth Miller of Gainford took place at Entwistle Church on Saturday, October 9th. The bride in white with a bouquet of red roses was given by her step-father, Mr. Allen Schmidt, of Hanna. Her bridesmaid, Miss Sandra Stocz of Hanna, Alberta was dressed in yellow and carried pink carnations and white mums.

Attendant for Kenneth was Mr. Elton McCracken of Magolia.

Mrs. Schmidt, mother of the bride was in blue with a corsage of pink and white mums. Mrs. Miller chose to wear blue with white trim for her son's wedding. She also had a corsage of pink and white mums.

Ushers at the church were Rodney and Steven Schmidt, brothers of the bride. A reception for the immediate family was held in the Gainford Hotel banquet room, served by Mrs. Kereluk and her staff. Kenneth and Theresa will make their home in Seba Beach. She has been working at Gainford Hotel and will continue to do so.

Mr. and Mrs. Edward Klovon and family from Calgary and Mr. and Mrs. Franchuk of Edmonton visited Mrs. Klovansky for the weekend.

Mrs. Woodley has moved to the Pleasant View Lodge at Mayerthorpe. One evening this week, six ladies joined Mrs. Lawley in her home for dessert and tea with a visit in honor of Mrs. Strachan. Mr. and Mrs. D. Strachan left on Thursday for Victoria, B. C. to visit her family. They will also be visiting Mr. and Mrs. York, former residents of Gainford. News from Mrs. York this week is that they are getting settled in their new home. Mr. York is taking a short course in Transistors and refrigeration.

It is nice to see Iris Kereluk out of the hospital and home. Because of her illness, she can't continue her studies at present, so is selling Avon Products.

and is interested in furthering his education in electronics, especially in the T.V. field.

Baby Karen Hauser is in the General Hospital. The Hauser family didn't have such a happy time after Thanksgiving. They were all sick. Bruce Hauser who sprained his arm a few weeks ago is getting better with that. He has it out of the sling. Gary Miller spent one night with the Hauser boys when he was here at the weekend.

Mr. and Mrs. Wayne Lenz and family drove to Calgary for Thanksgiving to visit relatives of Mrs. Lenz, a cousin, Mrs. Denise Maubert and an uncle and aunt, Mr. and Mrs. Albert Kaiser. The relatives took them on a tour of the zoo and Bowness Park.

This week of October 10 to 15 the Ladies of the Order of the Royal Purple are serving supper one night to the Dental Mechanics Association who are having a conference in the district. The men of Gainford Elks are busy this week too preparing for their Hallowe'n Masquerade Dance.

Mrs. Williams informed me that they had Harvey and June Deetchman of Caslo, B. C. to visit them at Thanksgiving. Harvey Deetchman and Art Williams went to school together quite a long time ago so they had some stories to tell.

One day this week, a lone man, Mr. Alex Holosney was seen up repairing the shingles of the roof on Gainford Hall. Thanks Mr. Holosney. Jobs to help the community don't always go unnoticed.

Wildwood Council Plans New Nuisance Grounds

At the last regular meeting of the Wildwood Village Council it was decided that further steps would be taken to acquire land for a nuisance ground. Council will be looking at the land owned by Mr. Horvat and by Mr. S. Myschuk.

Council is still waiting to hear from the Provincial Engineer, to see if a larger lagoon is needed or if we should divide our present lagoon into more cells.

A heat houser or cab unit is to be purchased for the tractor so it may be used more comfortably in the winter months.

A grant of \$750.00 has been approved by the Council to help the library get a good start. The Province will match dollar for dollar with the village for every book which the library board purchases.

In the future any trucker or heavy machine operator will be charged with the costs of repairing sidewalks broken in delivering gravel, dirt, etc.

Council supports celebrating Halloween on the night of October 30th. The school will be announcing this also.

LIBRARY NEWS

"Wheels" by Arthur Hailey has arrived. The retail book sellers say that "Wheels" will top the Canadian best seller list for fiction. The book, as are all Hailey's books, has been carefully researched. The locale is Detroit, the time now, and the theme the automotive industry. All the elements for a good story are here: big business, secret deals, over-worked executives, neglected wives, racial discrimination, crime and a host of well chosen characters but, for me at least, the book failed to hold the fascination of "Airport" "Hotel" and the "Final Diagnosis".

Monica Dickens "The Listeners" is the story of the people who give their time to an answering service designed to help troubled people. Lonely men and women, potential suicides, folk on the verge of mental collapse call, talk and are listened to.

Almost every week books arrive for school children and preschoolers. If you don't see what you want ask. Suggestions are welcome.

When suggesting a book we must have title, author and publisher. Many favorite books are out of print but we will try.

MOTHER'S DAY OUT WEDNESDAY

The next Mother's Day Out Program will be held Wednesday, October 27th in the Drayton Valley Council Chambers at 9:30 a.m.

The program: Mrs. Johnson; Health Nurse on "Child Care and Upbringing".

The program is open to anyone interested, there will be a babysitter available to look after your children while you enjoy the program.

WILDWOOD NEWS

The community was shocked and saddened by the sudden passing of Ted Olesuik. Sincere sympathy is extended to Viola and family and the Olesuik family.

Mr. and Mrs. Charlie Herzog visited latter's sister in Prince George, B. C.

Mrs. Mike Mateyko travelled by bus to Milk River to visit her brother. While there, she went to Shelby, Montana to shop and see the country.

Mrs. Mike Mateyko's daughter, Cindy Steppke and family of Grande Cache, spent ten days with her at Thanksgiving.

The former Nelson home on highway 16A had a fire on Tuesday, so the family moved in with friends. On Sunday morning it was gutted by another fire.

Mrs. Nick Zeller has just returned home from a visit to her mother in Saskatchewan. She was accompanied by her daughter Diane of Edmonton. They also visited with relatives in the U.S.A.

Mr. Henry Greenwood of Viking was a weekend visitor at the Winfield home.

Mrs. Connie Gatzke, has gone to Vancouver to finish her librarian course.

Evansburg and Wildwood are organizing a walk-a-thon for October 31. Wildwood will walk to Evansburg where soup and coffee will be served. Then back to Wildwood. Evansburg will be served soup and coffee in Wildwood and back to Evansburg to a pot luck supper. Each walker will give their proceeds to the organization they represent. For further information contact Mrs. Evelyn Hill at the Village office.

Mrs. Walker and Bennie are moving into their new mobile home just east of the Wildwood Hall.

There will be a show in the Wildwood Hall in the near future called "Alberta Show" It should be a very interesting and educational show as it is all about Alberta including mining in Alberta watch for posters.

Get well wishes go to Mr. Oscar Anderson, Mrs. Holby and Dick Michalchuk, in Drayton Valley Hospital.

Mr. and Mrs. Charlie Wapshott are proud parents of a wee son. Congratulations Charlie and Bobby.

Clothing Depot in Town Hall

A clothing depot is maintained in the basement of the town hall. Since June approximately 30 - 40 people have been given articles of clothing and household items such as dishes or blankets.

The clothing depot is staffed by a group of the Christian Social Action Group. Approximately every two months a group of ladies gathers and sorts out the clothes.

All excess clothing is boxed and sent to the Salvation Army or the Marian Centre. After the rummage sales most town groups give the clothes they have been unable to sell to the Clothing Depot. Many people who are cleaning cupboards take extra clothing, and kitchen supplies to the basement of the town hall.

At the present time there is a need for women's clothes size 20 or larger, women's winter boots, rubber boots and men's work clothing, pants, shirts, windbreakers and parkas. Anyone who has extra things in their house should make a regular habit of taking these things and depositing them at the door of the clothing depot in the town hall.

Anyone desiring information about clothes may phone Mrs. Tyler 542-3487 preferably between 5:00 - 6:00 p.m. any week day.

To Collect for U.N.I.C.F.

Hallowe'en time is here again. Once again on October 31 little goblins, witches, fairies and other assorted folk will be going door to door for their usual treats.

Once again five children on each street will be given U.N.I.C.E.F. boxes and these little goblins will collect money for U.N.I.C.E.F. Each householder is asked to decide what he would like to donate to U.N.I.C.E.F. and then divide this amount into five e.g. a gift of 50 cents would mean a dime for each box.

Last year the U.N.I.C.E.F. committee chairman was Mrs. Tyler and a total of \$181.00 was raised for U.N.I.C.E.F. This year's committee is Peggy Tyler and Rachael Anderson. The committee is assisted by one lady on each street who give out and collect the boxes from the children.

U.N.I.C.E.F. gives aid in 112 developing countries with a child population of more than 700 million. From one of the U.N.I.C.E.F. bulletins here is a small summary of some of the work that has been done by this wonderful organization over the years.

"Malaria -- in 1969, 32 million children have been vaccinated with U.N.I.C.E.F. supplies vaccine, about 180 million of them since 1960; Yaws -- a disease for which more than 24 million children have been treated; including 10 million since 1960. Trachoma -- over 40 million children have been treated."

Millions of children have been helped but there are millions more to help. Please help our children to help through U.N.I.C.E.F.
